

# THE OREGON MIST.

United States and County Official Paper.

ST. HELENS, NOVEMBER 20, 1891.

## LOCAL AND GENERAL.

Mr. D. B. English, of Long Beach Wash., was a caller at this office Thursday.

For a good smoke or fresh French candies call at Decker's confectionery store.

Salmon are a little more plentiful just now than they have been for some time.

The best brands of coffee, teas, spices, etc., at Bacon's, Gillen.

The Mazanillo is running in the Kellogg's place while the latter is in Portland having a new boiler put in.

Mrs. J. G. Muckle visited Clatskanie last Friday night and enjoyed the splendid entertainment given by the M. E. church of that place.

The Kellogg company are again charging fare to passengers, though not quite as high as was the custom before the free boat scheme.

Bacon pays highest price for all kinds of produce.

George K. Kelly and family of Milton, left Thursday for a week's visit at Long Beach, Washington, with relatives.

Miss Flora Thorne, of Oregon City, spent last week in St. Helens visiting at the home of Judge and Mrs. F. A. Moore. She returned home Monday.

Produce taken in exchange for goods at Bacon's farmers' alliance store.

See the card of Chas. W. Mayger, notary public and insurance agent, Mayger, Oregon, in another column.

There has been a special agent of the interior department in and about St. Helens lately looking after Uncle Sam's interest.

The Portland Seed Company have an ad in this week's *Mist*. Mr. F. W. Miller, the manager, was, for a long time, connected with the firm of Miller Bros., seedmen, and is well known to many of our readers.

We call the attention of our readers to the ad of J. M. Moyer & Company, clothiers, of Portland, and take pleasure in recommending them as a reliable firm, who are always ready and willing to attend to the wants of their many customers.

Mr. Edwin Ross attended the entertainment at Clatskanie last Friday night. He reports a splendid time and says that "the programme was excellent." However it was not due to any effort on the part of the people of St. Helens.

The steamer *Flyer* has gone to the Sound and in a few days will be placed on the Tacoma-Seattle route. The *Flyer* is expected to make an average of about twenty-three miles per hour, thus laying the railroads of this country in the shade.

Don't fail to attend the social at the Masonic hall this (Friday) evening. There will be something new on the programme—something never before seen in St. Helens. A splendid lunch has been prepared by the ladies of the town and a good time is assured those who attend.

Since November 1889, electricity as the motive power, has been adopted by three of the street railways of Portland. An aggregate of 32½ miles is operated in this manner and an additional 32 miles is being converted into electric roads, or under proposition to that end.

Hillboro, the relic of mossbackism for so many years, is now about the only live town in the Willamette valley. Her electric lights and water works will be in operation some time next month. This, coupled with the erection of a brick city hall, a new brick courthouse and a number of new business blocks, is the pure essence of prosperity, while the seething mass of humanity in St. Helens have to be content with coal oil lamps and river water.

Many years practice have given C. A. Snow & Co., Solicitors of Patents, at Washington, D. C., unsurpassed success in obtaining patents for all classes of inventions. They make a specialty of rejected cases, and have secured allowance of many patents that had been previously rejected. Their advertisement in another column, will be of interest to inventors, patentees, manufacturers, and all who have to do with patents.

We trust that those of our readers who have lately received statements of their account with *The Mist* for subscription will find it convenient to respond with the cash at an early date, as it requires considerable of that commodity to run a newspaper. Some of these accounts have been running for years and should be paid. Just one or two subscribers in arrears would not make so very much difference, but when you consider that we have on our books several hundred who are delinquent all the way from one to seven years, it is of material importance to us, and we hope to receive a prompt response from those delinquent. Subscriptions paid promptly make a good newspaper.

A man by the name of Frank Peterson was arrested last Saturday night, having been caught in the act of burglarizing Muckle Bros. Store. About 2 o'clock on Sunday morning the watchman in the mill heard a noise at the store and on approaching near saw a man inside. The watchman at once summoned assistance and proceeded to capture the thief. Peterson had broken in a pane of glass in the back door of the store and then reached inside and removed the bar from the door, turned the key and walked in. It was the breaking of the glass that gave him away, making a noise that the watchman happened to hear. The burglar did not seem to want anything but clothing, and was making haste as fast as possible to load himself with that commodity, which he seemed somewhat in need of. When confronted by the watchman and others he seemed to wilt at once and offered no resistance, simply saying, "you can fine me." He had been drinking some and claimed that he did not know what he was doing at the time; but all the goods that he had selected were just about the proper size for him, especially was this the case with a pair of shoes which he had picked out. An examination was held before Recorder Watts Monday morning and his bail was fixed at \$500 to await the action of the grand jury, in default of which he was sent to jail in Portland, the sheriff taking him on Tuesday last. It is the general opinion that Peterson was not nearly so drunk as he pretended.

The steamer *Toledo* is at present hauled out on the ways in East Portland undergoing repairs. She will be on her regular route again some time next week.

H. R. Wickersham and Chas. W. Umbelohde made proof on their claims yesterday.

Drew, the Scappoose burglar, who has been serving a thirty-day sentence in the county jail, was given his freedom last Friday, having completed his sentence.

Clara A. Rosenberg made final proof on her homestead before County Clerk Quick Wednesday.

### RAINIER.

Last Friday evening a quiet wedding took place at the residence of Mr. and Mrs. John Dibble, the happy parties being Mr. Andrew Clark and Miss Edith Dibble. The wedding ceremony was pronounced in a very impressive manner by Rev. William Travis, of East Portland. The rooms were tastefully decorated with flowers, plants, evergreens and ivy; the parlors presented a hand some appearance. After congratulations were extended the wedding party sat down to an elegant dinner, to which all did justice. Mr. and Mrs. Clark were the recipients of many nice presents. They will be "at home" to their friends on Wednesday of each week. The guests were: Mr. and Mrs. John Dibble, Mr. and Mrs. M. Pomeroy, Mr. and Mrs. A. L. Richardson, Mr. and Mrs. W. J. Deitz, Mr. and Mrs. W. J. Meckle, Miss A. Lewis, Mr. and Mrs. William Perry, Mrs. John Holland, Messrs. Dean Blanchard, Josiah Weston, R. C. Campbell, J. B. E. Bourne, J. W. Green, H. R. Dibble and Rev. William Travis.

J. Frost has paid us a few visits lately and caused quite a coolness in the neighborhood.

Chas. Avery is the last victim of misplaced confidence in a running saw to the extent of a badly wounded hand in the shingle mill, on Tuesday last. When will the boys learn that they cannot stop a buzz saw with their naked hands.

Miss May Brou is seriously ill with rheumatic fever.

Mr. D. C. Tedford is behind the counter of W. J. Muckle. Report says he is a partner.

Mrs. Jennie Graham has moved to town again with her family. Mr. G. don't look so lonesome now.

Mr. Peter Brou is building himself a new cottage which will, when finished, be quite an addition to the place.

Dan Bearce is not only a first class carpenter but farmer as well, as can be proven by the produce of his farm. He has some of the largest potatoes on exhibition at the postoffice that we have seen, one of them measures, and weighs—well we won't say how much but bring on your big potatoes and he will match with you.

Mr. Bearce has fitted up the cottage by the bridge and is occupying it for the present.

There is not a vacant habitable house in town though many more could find tenants.

Rev. Mr. Bauman, our new Congregational minister, will move with his family as soon as he is able to secure a house. Mr. Bauman takes the place of Rev. Wise who has resigned the pastorate at this place and gone East of the mountains.

Several cases of influenza have been reported but it is on the decline.

### NORMAL NOTES.

Thanksgiving will be observed by a sermon in the morning in connection with other appropriate exercises.

interspersed with music from the college choir.

The senior examination will begin on the 21st inst. The class numbers near forty-five. Ten out of the twenty-seven branches will be given at this examination.

The college boarding hall now has 170 students to board.

The different societies will give a joint exhibition at the end of this school term. Among the exercises will be a play by seventeen characters and occupying two hours.

The new electric clock arrived this week and will be put in position immediately. Wires will be connected to the various rooms in order to have the signals for change of recitation be made at the same time.

Miss Anna Stockton and Messrs. F. Shanks and W. H. Powell delivered an address in chapel this morning, it being the regular morning for senior rhetorical work.

Your correspondent reads with pleasure the many items of interest contained in each issue of *THE MIST*. WILHELM H. PROCTOR.

### APIARY GLEANINGS.

Weather fine and cool. Mills generally are closing down for the winter.

Where is your deer, Kirby? Answer. Where is yours, Girt?

Mr. Boreas's mill hands have nearly all quit him. They say they cannot stand the pressure of \$20 per month.

William Graham, of Washington, is at present visiting his friends of the Beaver.

Deer hunting is a sport engaged in quite extensively for the last few weeks. Judging from the results there must be two hunters for one "deer."

Well, boys, what's the matter with having a dance. S. KEEGG.

### PITTSBURG.

The recent rains have made the roads almost impassable between this place and St. Helens.

The mill company are rafting lumber from this place to Mishawaka where they find sale for all they take there.

The "Molly Darling" was wrecked last Tuesday. While being loaded with lumber it became loose and went over the dam below the mill. Damage unknown, but it is thought to be a total loss.

Harvey Powell and George Pearson took a trip to Mist last Saturday. They express themselves well pleased with the road. Take a boat next time boys if the road don't suit you.

Misses Dora Powell and Frona Wilkinson came home last Saturday.

There will be an entertainment at the school-house tonight. Admission 25 cents. "Come early and avoid the rush."

Now Mr. Editor, if I see this in print it will not be the last you will hear from me. UNO.

SEND IN THE NEWS.

To Subscribers, Old and New.

In order to put *The Weekly Oregonian* into the hands of those who without it, the publishers make the liberal offer of fifteen months for \$2.00 to all who subscribe prior to January 1, 1892. The offer applies not only to new subscribers but to renewals as well. In addition to this, each new subscriber, or old subscriber renewing, is given his choice of either "The American Live-stock Manual," or the Standard American Poultry Book, which will be sent free, postage prepaid. These are valuable works of reference for the farmer.

The *Weekly Oregonian* is the great weekly of the Northwest. There is no weekly published on the Pacific coast, or anywhere else, that furnishes readers a fuller compendium of all the news of the world than does the *Weekly Oregonian*. No other paper gives such close attention to Pacific coast news, especially to what is transpiring in the great Northwest. Aside from its unexcelled news features, a large number of special articles, prepared for its columns by well known writers, are published during the year. It furnishes descriptive letters from various portions of our own country and from foreign climes, as well as stories, poetry and well selected miscellany. There is a department maintained for the farmer, also for the women and children. All the advantages of a newspaper of the first class are offered by *The Weekly Oregonian*. No family in the entire Northwest can afford to be without it.

### ELECTRIC FORCE.

The Great Fundamental Principle of the Universe and Its Power to Restore Health.

(Oregonian, November 16, 1891.)

Experiments by scientists are constantly and surely proving electricity to be the great motor power of creation. Electricity is the most powerful chemical agent, as well as the basis of chemical action. It is the primal element of light and heat; the promoter of life and the sustainer of health. Disease yields readily to its magnetic touch, and even unrelenting death is averted by its presence. Thousands of afflicted and suffering bear witness to its healing power. The electro-magnetic, as practiced by Dr. Darrin, has revolutionized the practice of medicine, as is shown by the following:

### EXTRACTS OF TESTIMONIALS:

Ed. Hynes, Albina, catarrhal deafness, restored.

P. C. McFarlane, Vancouver, sciatic rheumatism, cured.

Thomas Buff, Mocksburg, dizziness, kidney and liver complaint, restored.

J. R. Cunningham, Wapinitia, Waco Co., Or., total deafness two years in one ear and partially so in the other, cured.

Mrs. J. E. Smith, Prineville, Or., nervous debility and general weakness, almost bordering on insanity, restored.

Henson McCoy, The Dalles, Or., deafness and terrible pain in the ear and head for six months, until he was nearly crazy, restlessness and insomnia. Restored to health by electricity after all treatments had failed.

Dr. Darrin continues to treat all classes, the rich and poor alike, free of charge, at 704 Washington street, Portland, from 10 to 11 A. M. daily. Those willing to pay, from 11 A. M. to 5 P. M. at one-half his former prices. He gives free confidential examinations to all at the office or by letter. He treats all curable chronic, acute and private diseases with electricity, and medicine when required.
